Audit report

To the Board of Managers of
EIG Pearl Holdings S.à r.l.

Our opinion

In our opinion, the accompanying financial statements give a true and fair view of the financial position of EIG Pearl Holdings S.à r.l. (the “Company”) as at 31 December 2023, and of its financial performance and its cash flows for the year then ended in accordance with IFRS Accounting Standards as adopted by the European Union.

What we have audited

The Company’s financial statements comprise:

- the statement of financial position as at 31 December 2023;
- the statement of profit or loss for the year then ended;
- the statement of changes in equity for the year then ended;
- the statement of cash flows for the year then ended; and
- the notes to the financial statements, including material accounting policy information and other explanatory information.

Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the “Commission de Surveillance du Secteur Financier” (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the “Responsibilities of the “Réviseur d’entreprises agréé” for the audit of the financial statements” section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Company in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

Responsibilities of the Board of Managers for the financial statements

The Board of Managers is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS Accounting Standards as adopted by the European Union, and for such internal control as the Board of Managers determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

*PricewaterhouseCoopers, Société coopérative, 2 rue Gerhard Mercator, B.P. 1443, L-1014 Luxembourg
T : +352 494848 1, F : +352 494848 2900, www.pwc.lu*

*Cabinet de révision agréé. Expert-comptable (autorisation gouvernementale n°10028256)
R.C.S. Luxembourg B 65 477 - TVA LU25482518*

In preparing the financial statements, the Board of Managers is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Managers either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the “Réviseur d’entreprises agréé” for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Managers;
- conclude on the appropriateness of the Board of Managers' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Company to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate to them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

Restriction on distribution and use

This report, including the opinion, has been prepared for and only for the Board of Managers and the Shareholder in accordance with the terms of our engagement letter and is not suitable for any other purpose. We do not accept any responsibility to any other party to whom it may be distributed.

EIG Pearl Holdings S.à r.l.
Société à Responsabilité Limitée
Notes to the financial statements

NOTE 1 - GENERAL INFORMATION

EIG Pearl Holdings S.à r.l. (hereafter the "Company") was incorporated on 21 September 2020 and is organised under the laws of Luxembourg as a "Société à responsabilité limitée" for an unlimited period.

The Company is registered with the Trade and Companies Register of Luxembourg with the number B 247.751 and has its registered office established at 18, Boulevard de Kockelsheueur L-1821 Luxembourg, Grand Duchy of Luxembourg.

The Company may, either directly or indirectly, carry out any transactions with respect to real estate and movable property, including ships and/or vessels registered in the Grand Duchy of Luxembourg or abroad, including but not limited to the acquisition, management, ownership, disposition, lease and sale of such assets.

The Company may also acquire participations, in Luxembourg or abroad, in any companies or enterprises in any form whatsoever, and the management of those participations. The Company may in particular acquire, by subscription, purchase and exchange or in any other manner, any stock, shares and other participation securities, bonds, debentures, certificates of deposit and other debt instruments and, more generally, any securities and financial instruments issued by any public or private equity. It may participate in the creation, development, management and control of any company or enterprise. Further, it may invest in the acquisition and management of a portfolio of patents or other intellectual property rights of any nature or origin.

The Company may borrow in any form. It may issue notes, bonds and any kind of debt and equity securities. It may lend funds, including, without limitation, the proceeds of any borrowings, to its subsidiaries, affiliated companies and any other companies. It may also give guarantees and pledge, transfer, encumber or otherwise create and grant security over some or all of its assets to guarantee to own obligations and those of any other company, and, generally, for its own benefit and that of any other company or person.

The Company may use any techniques, legal means and instruments to manage its investments efficiently and protect itself against credit risks, currency, exchange exposure, interest rate risks and other risks.

The Company may carry out any commercial, financial or industrial operation and any transaction with respect to real estate or movable property which, directly or indirectly, favours or relates to its corporate object.

The Company's financial year starts on the 1 January and ends on the 31 December of each year.

The Company has invested in Aramco Oil Pipelines Company ("AOPC"), a subsidiary of Saudi Arabian Oil Company ("Aramco"), through a purchase of 49% stake in the former's equity interest. The subsidiary will have rights to 25 years of tariff payments for oil transported through Aramco's crude pipeline network. Aramco, the world's biggest oil producer, will retain ownership of the other 51% of the shares.

NOTE 2 – MATERIAL ACCOUNTING POLICIES

2.1 Statement of compliance

The financial statements of the Company have been prepared in accordance with International Financial Reporting Standards as adopted in the European Union ("IFRS accounting standards") and Interpretations of the International Financial Reporting Interpretation Committee ("IFRIC") issued and effective or issued and early adopted as at 31 December 2023.

EIG Pearl Holdings S.à r.l.
Société à Responsabilité Limitée
Notes to the financial statements
(continued)

2.2 Going concern

The Management has made an assessment of the Company's ability to continue as a going concern and is satisfied that the Company has the resources to continue in business for the foreseeable future. Furthermore, management is not aware of any material uncertainties that may cast significant doubt upon the Company's ability to continue as a going concern. As at 31 December 2023, Current assets (USD 150 millions) are lower than the Current liabilities (USD 196 millions), but based on the cashflow forecast (including the dividend received in Q1-2024, see Note 19 – Subsequent events) the Company is able to meet its financial obligations. Therefore, the financial statements continue to be prepared on the going concern basis.

2.3 Basis of preparation

The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) at fair value through profit or loss.

These financial statements present the statement of cash flows using the indirect method.

The preparation of the financial statements in conformity with IFRS accounting standards requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. Changes in assumptions may have a significant impact on the financial statements in the period in which the assumptions changed. The Managers believe that the underlying assumptions are appropriate and that the financial statements therefore present the financial position and its results fairly. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in Note 3.

2.4 Foreign currency translation

2.4.1 Functional and presentation currency

The financial statements are presented in United States Dollars (“USD”), which is also the Company's functional currency as the equity investment, financial liabilities, and source of revenue of the Company are denominated in USD. Items included in the financial statements are measured using the currency of the primary economic environment in which the entity operates.

2.4.2 Foreign currency transactions and balances

Foreign currency transactions are translated into USD using the exchange rates prevailing at the dates of the transactions or valuation where items are re-measured.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the statement of profit or loss under ‘Net foreign exchange (loss)/gain’.

Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction. Non-monetary assets and liabilities denominated in foreign currencies that are stated at fair value are translated at foreign exchange rates ruling at the dates the fair value was determined and recognised in the statement of profit or loss under ‘Net changes in fair value of financial instruments at fair value through profit or loss’.

EIG Pearl Holdings S.à r.l.
Société à Responsabilité Limitée
Notes to the financial statements
(continued)

2.5 Financial assets

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through OCI or through profit or loss), and
- those to be measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

Measurement

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss (FVTPL), transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVTPL are expensed in profit or loss.

Equity instruments

Classification and subsequent measurement

Equity instruments are instruments that meet the definition of equity from the issuer perspective; that is, instruments that do not contain a contractual obligation to pay and that evidence a residual interest in the issuers' net assets. Equity instruments include basic ordinary shares.

The Company holds equity shares in associate. An associate is an entity over which the Company has significant influence and that is neither a subsidiary nor an interest in a joint venture. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

Where an entity holds 20% or more of the voting power (directly or through subsidiaries) of an investee, it will be presumed the investor has significant influence unless it can be clearly demonstrated that this is not the case. In the case of AOPC, the Company's 49% ownership interest, Board seats and policymaking input confirm that the Company has significant influence, however, it does not have control. With a 51% ownership interest, the majority of the Board seats and existing management in place, Saudi Aramco maintains control of the company.

IAS 28 provides an exemption to utilize FVTPL accounting on an acquisition when the acquirer is considered as "venture capital, mutual funds or similar entities" and is supported by IFRS 9, as long as this election is made at the initial recording. Management believes that it meets the exemption because the investment is managed on a Fair value (FV) basis, the nature of the investments is equity, and the expected returns are from FV increase and dividend payments. There is no intent to own/operate the asset for the long term. Influence will only be utilized to the extent necessary to preserve the value of our investment. Additionally, this method will provide the best clarity of the value of the underlying equity investment to the users of our financial statements.

Gains and losses in equity investments at FVTPL are included as "Net changes in fair value of financial instruments at fair value through profit or loss" in the statement of profit or loss. Dividends and distributions received from financial assets measured FVTPL are recognised as other income in profit or loss when the right to receive payment is established.

De-recognition

Financial assets, or a portion thereof, are derecognised when the contractual rights to receive the cash flows from the assets have expired, or when they have been transferred and either (i) the Company transfers substantially all the risk and reward of ownership, or (ii) the Company neither transfers nor retains substantially all the risk and rewards of ownership and the Company has not retained control. The Company may enter into transactions where it retains the contractual rights to receive cash flows from assets but

EIG Pearl Holdings S.à r.l.
Société à Responsabilité Limitée
Notes to the financial statements
(continued)

assumes a contractual obligation to pay those cash flows to another entity and transfers substantially all of the risk and rewards. These transactions are accounted for as a ‘pass through’ transfer that results in de-recognition if the Company:

- i) has no obligation to make payments unless it collects equivalent amounts from the assets;
- ii) is prohibited from selling or pledging the assets; and
- iii) has an obligation to remit any cash it collects from the assets without material delay.

Cash and cash equivalents

Classification and subsequent measurement

Financial assets are measured at amortised cost if the assets meet the following conditions (and are not designated as FVTPL):

- i) they are held within a business model whose objective is to hold the financial assets and collect its contractual cash flows.
- ii) the contractual terms of the financial assets give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding.

The Company’s cash and cash equivalents have been classified under this category.

2.6 Cash and cash equivalents

In the statement of cash flows, cash and cash equivalents includes cash in hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less and bank overdrafts. In the statement of financial position, bank overdrafts are shown within borrowings in current liabilities.

2.7 Financial liabilities

Borrowings

Classification and subsequent measurement

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest rate (“EIR”) method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates. The EIR amortisation and commitment fee on the undrawn facility is included in finance costs in the statement of profit or loss. The borrowings have been classified under this category.

De-recognition

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other income or finance costs.

Modification to the terms of a financial liability

When the terms of a borrowing are modified, the Company needs to consider if the modification is qualitatively and/ or quantitatively substantial. A qualitative modification is a substantial change in the terms and conditions of the borrowing such that it requires immediate de-recognition. Quantitatively, a modification to the terms of a borrowing is substantial if the net present value of the cash flows under the modified terms, including any fees paid net of any fees received, and discounted at the original EIR, is a least 10 percent different from the carrying amount of the original debt.

EIG Pearl Holdings S.à r.l.
Société à Responsabilité Limitée
Notes to the financial statements
(continued)

If the modification is non-substantial, a modification gain or loss, which is equal to the difference between the present value of the cash flows under the original and modified terms discounted at the original EIR, is recognised immediately in the profit or loss and amortised over the life of the modified financial liability through the EIR.

If the modification is substantial, the original borrowing is de-recognised, and the new financial liability is recognised. The difference between the carrying amount of the de-recognised financial liability and the initial recognition amount of the modified financial liability is recognized in profit and loss. Upon a substantial modification, the new financial liability is recognised at its fair value at the date of modification, may include transaction costs directly attributable to the modification.

For financial instruments measured using amortized cost measurement (that is, financial instruments classified as amortized cost and debt financial assets classified as FVTPL), changes to the basis for determining the contractual cash flows required by interest rate benchmark reform are reflected by adjusting their effective interest rate. No immediate gain or loss is recognized. Where some or all of a change in the basis for determining the contractual cash flows of a financial asset and liability does not meet the above criteria, the above practical expedient is first applied to the changes required by interest rate benchmark reform, including updating the instrument's effective interest rate. Any additional changes are accounted for in the normal way (that is, assessed for modification or derecognition, with the resulting modification gain / loss recognised immediately in profit or loss where the instrument is not derecognised).

2.8 Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

2.9 Share premium

Share premium represents the amount by which the proceeds for shares issued exceeded the par value of USD 1 per share.

Proceeds received without the corresponding shares issuance have been included in share premium.

2.10 Other payables and accruals

Other payables and accruals are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). If not, they are presented as non-current liabilities.

Other payables and accruals payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

2.11 Income tax

Current income tax

Current income tax assets and liabilities for the current period are measured at the amount expected to be recovered from or paid to the tax authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Deferred income tax

Deferred income tax assets and liabilities are recognised on all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements, with the following exceptions:

EIG Pearl Holdings S.à r.l.

Notes to the financial statements
(continued)

- (a) Where the temporary difference arises from the initial recognition of goodwill, or of an asset, or liability in a transaction that is not a business combination that at the time of the transaction affects neither the accounting nor taxable income or loss;
- (b) In respect of taxable temporary differences associated with investments in subsidiaries, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future; and
- (c) Deferred tax assets are only recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, carried forward tax credits or tax losses can be utilised.

Deferred income tax assets and liabilities are measured on an undiscounted basis at the tax rates that are expected to apply to the year when the related asset is realised or the liability is settled, based on tax rate (and tax laws) that have been enacted or substantively enacted at the statement of financial position date.

2.12 Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets traded in active markets (such as publicly traded derivative and equity securities publicly traded on a stock exchange) are based on quoted market prices at the close of trading on the reporting date.

With respect to investments other than marketable securities, the Company generally fair values each investment using a discounted cash flow method by calculating the net present value of the projected cash flows from the investment over the period the investment is expected to be held. The discount rate applied is based on a risk-adjusted premium which the Company reasonably believes reflects the risk of not achieving a return of capital on the investment within the stated term of the investment. Inherent also in this analysis is the Company's assessment of the probability of a payment default. In determining the appropriate discount rate for each investment, the portfolio company's current and future financial prospects as well as inherent uncertainties in the timing of underlying cash flows and other information deemed pertinent including external engineering reports, comparable transactions and commodity prices are considered.

Where the date of acquisition of an investment is in close proximity to the fair market value measurement date, the price at which such investment is closed is used as the primary determinant of fair market value.

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Refer to Note 3 for further information.

EIG Pearl Holdings S.à r.l.
Société à Responsabilité Limitée
Notes to the financial statements
(continued)

2.13 Derivative financial instruments

The Company enters into derivative financial instruments to manage its exposure to interest rate risk, including interest rate swaps. Derivatives are recognised initially at fair value at the date a derivative contract is entered into and are subsequently remeasured to their fair value at each reporting date. The resulting gain or loss is recognised in profit or loss immediately under 'Net changes in fair value of financial instruments at fair value through profit or loss'.

During the year, the Company has not designated any derivative as a hedging instrument. Derivatives are only used for economic hedging purposes and not as speculative investments.

A derivative with a positive fair value is recognised as a financial asset whereas a derivative with a negative fair value is recognised as a financial liability under 'financial liabilities at fair value through profit or loss'. Derivatives are not offset in the financial statements unless the Company has both legal right and intention to offset. A derivative is presented as a non-current asset or a non-current liability if the remaining maturity of the instrument is more than 12 months and it is not expected to be realised or settled within 12 months.

The swaps cover approximately 100% of the variable loan principal outstanding.

The swap contracts require settlement of net interest receivable or payable every 90 days. The settlement dates coincide with the dates on which interest is payable on the underlying loans.

Net interest income/expense on the derivative financial instruments are recognised in profit or loss under 'Finance costs, net'.

2.14 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting used by the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Managers of the investment manager that makes strategic decisions.

NOTE 3 – CRITICAL ACCOUNTING ESTIMATES, JUDGEMENTS AND ASSUMPTIONS

The Company makes estimates and assumptions that affect the reported amounts of assets and liabilities within the next financial year. Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Those estimates and assumptions which entail a significant risk of substantive adjustments in the book value of assets and liabilities over the next 12 months pertain to the following.

In particular, significant areas of estimation, uncertainty, and critical judgments in applying accounting policies (that have the most significant effect on the amount recognised in the financial statements) are as follows:

EIG Pearl Holdings S.à r.l.
Société à Responsabilité Limitée
Notes to the financial statements
(continued)

3.1 Fair value of investments

The Company has invested in Aramco Oil Pipelines Company (“AOPC”), a subsidiary of Saudi Arabian Oil Company (“Aramco”), through a purchase of 49% stake in the former’s equity interest. This investment was made on 17 June 2021 at a consideration of USD 12.41 billion, which the Management believes its fair value as at 31 December 2023 amounts to USD 11.92 billion (2022: USD 11.73 billion).

The fair value of investments is determined by using valuation techniques which refer to both observable market data and unobservable inputs. Management considers the following when applying valuation methodologies:

- The likelihood and expected timing of future cash flows on the instrument. These cash flows are usually governed by the terms of the instrument. However, management judgment is required when determining cash flows of equity type investments;
- An appropriate discount rate for the instrument. Management determines the discount rate based on its assessment of the appropriate risk premium for each investment over the appropriate risk-free rate based on the remaining average life of the investment. Where an investment has both a debt and an equity component, separate rates are determined for each component.

The primary Level 3 valuation technique used by Management is the discounted cash flow model. Management views discount rates as the key unobservable input for valuing its investments. The use of unobservable inputs requires a significant degree of judgment. Management assesses the accuracy and reliability of the sources it uses to obtain unobservable inputs.

AOPC was valued using the discounted cash flow method on projected future cash flows. Internally generated estimates on volumes and costs along with contractually agreed upon tariffs determine the subsidiary cash flows which were then used to generate estimated distributions to AOPC.

The fair value hierarchy of financial assets is presented in Note 4.4.

The Board has also assessed the potential impact of climate related matters and has determined that the climate related matters have no impact on these financial statements. Furthermore, the Board of Managers is not aware of any material uncertainties that may result in a change in this assessment.

3.2 Murabaha agreement measurement

On 20 September 2023, the Company entered into Murabaha financing arrangement. The Company focused on the economic substance of an agreement rather than the legal form based on IFRS accounting standards requirements. Therefore, IFRS principles rather than the Islamic legal form will ultimately determine the accounting treatment.

The contractual terms of the Murabaha financing arrangement give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding. Based on analysis, the Company concluded that Murabaha financing arrangement meet criteria set in IFRS 9 to be recognised as financial liabilities measured at amortised costs thorough the profit and loss. The financial liability is accounted for using the amortized cost method (Effective Interest Rate (EIR) method) and transaction costs are amortised over the term of the Murabaha financing arrangement.

Société à Responsabilité Limitée
Notes to the financial statements
(continued)

NOTE 4 - FINANCIAL RISK MANAGEMENT

The Company's activities expose it to a variety of financial risks and those activities involve the analysis, evaluation, acceptance and management of some degree of risk or combination of risks. The Company's aim is therefore to achieve an appropriate balance between risk and return and minimize potential adverse effects on the Company's financial performance. The Company's risk management policies are designed to identify and analyse these risks, to set appropriate risk limits and controls, and to monitor the risks and adherence to limits by means of reliable and up-to-date information systems. The Company regularly reviews its risk management policies and systems to reflect changes in markets, products and emerging best practices. Financial risk management is carried out by various operating units under policies approved by the Board of Managers.

4.1 Market risk

The Company takes on exposure to market risk which is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risks arise from open positions in interest rates, currency and equity products, all of which are exposed to general and specific market movements and changes in the volatility of market prices or prices such as interest rates, credit spreads and foreign exchange rates.

The discontinuation of LIBOR in favour of more reliable alternative reference rate such as Secured overnight financing rate (SOFR) represents a significant shift in global financial markets. This transition is prompted by regulatory recommendations aiming to enhance the robustness and integrity of financial benchmarks. The Company's financial liabilities have historically referenced LIBOR for determining interest rates. The transition from LIBOR to SOFR has not led any adjustments to valuation and interest rate terms of the financial instruments. In the second half of 2023, the Company changed its interest rate from LIBOR to SOFR for all facilities (except for the bonds).

Currency risk

Foreign exchange risk is the risk that that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign exchanges rates. The Company is exposed to currency risk on financial assets and liabilities that are denominated in a currency other than the functional currency, primarily the Euro ("EUR"). A 10 percent increase or decrease represents management's assessment of a reasonable possible change in exchange rates.

As at 31 December 2023, the currency risk is shown in the table below:

Effect in USD	Movement on EUR/USD exchange rate	
	10%	-10%
Financial assets		
Cash and cash equivalents	3,845	(3,845)
Financial liabilities		
Other payables and accruals	(22,780)	22,780
	(18,935)	18,935

As at 31 December 2022, the currency risk is shown in the table below:

Effect in USD	Movement on EUR/USD exchange rate	
	10%	-10%
Financial assets		
Cash and cash equivalents	2,018	(2,018)
Financial liabilities		
Other payables and accruals	(11,422)	11,422
	(9,404)	9,404

EIG Pearl Holdings S.à r.l.
Société à Responsabilité Limitée
Notes to the financial statements
(continued)

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in the market interest rates. All loan facilities (except bonds) bear a floating-rate interest equal to SOFR plus a margin, which is reset at specified intervals. The risk is managed by the Company by the use of interest rate swap contracts. The swaps cover approximately 100% of the variable facilities outstanding. Under interest rate swap contracts, the Company agrees to exchange the difference between fixed and floating rate interest amounts calculated on agreed notional principal amounts. Such contracts enable the group to mitigate the risk of changing interest rates on variable rate facilities held.

A 10 basis point increase or decrease represents management's assessment of a reasonable possible change in interest rates.

A of +/- 0.1% from period end SOFR (2022: LIBOR) would have the following impact on the current interest expense recorded in statement of profit or loss:

<i>in USD</i>	Movement in SOFR		Movement in LIBOR	
	As at 31 December 2023		As at 31 December 2022	
Effect in USD	0.10%	-0.10%	0.10%	-0.10%
Interest expense impact	11,109,398	(11,109,398)	11,058,437	(11,058,437)

During the year ended 31 December 2023, the Company entered into swap agreement in order to mitigate exposure to interest rate risks in relation to the terms of the various financial institutions. As of 31 December 2023, the fixed interest rates ranged between 1.9810% and 2.1885%, and floating rate amounted to 5.3800%.

A 10 basis point increase or decrease represents management's assessment of a reasonable possible change in interest rates.

A +/- 0.10% from year end interest rate would have the following impact on the interest rate swaps recorded in statement of profit or loss and statement of financial position:

<i>in USD</i>		Movement in interest rate		
		2023		
Effect in USD	Swap notional amounts	Borrowing amount exposure at risk	0.10%	-0.10%
Interest rate swap	8,583,920,289	7,916,491,246	8,583,920	(8,583,920)

As at 31 December 2022:

<i>in USD</i>		Movement in interest rate		
		2022		
Effect in USD	Swap notional amounts	Borrowing amount exposure at risk	0.10%	-0.10%
Interest rate swap	8,526,311,117	8,556,491,246	6,755,591	(6,755,591)

EIG Pearl Holdings S.à r.l.
Société à Responsabilité Limitée
Notes to the financial statements
(continued)

4.2 Credit risk

Credit risk is the risk that counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Company, resulting in a loss for the Company.

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was as follows:

<i>in USD</i>	As at 31 December 2023	As at 31 December 2022
Cash and cash equivalents	132,517,191	100,368,091
Maximum credit exposure	132,517,191	100,368,091

a) Cash and cash equivalents

The credit rating of the Company's bank is as follows:

Long-term/Short-term Counterparty	Société Générale
Moody's	A1 / P-1
Standard & Poor's	A / A-1
Fitch	A

EIG Pearl Holdings S.à r.l.
Société à Responsabilité Limitée
Notes to the financial statements
(continued)

4.3 Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company manages liquidity risk by maintaining adequate cash balances and banking facilities, continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

During the year ended 31 December 2022 the Company has also entered into a Debt Service Reserve Facility ("DSRF") Agreement (note 13.1) to ensure that the company have liquidity to meet its interest payment. The Company will also receive distributions supported by tariff payments to Aramco pipelines that will ensure our ability to manage any liquidity risk.

The following are the contractual maturities of financial liabilities, including undiscounted contractual future interest payments shown at nominal values as at 31 December 2023 (except financial liabilities at fair value through profit or loss). For details on exact maturity dates please refer to Note 13.

	Less than 3 months	Between 3 months and 1 year	Between 1 and 2 years	Between 3 and 5 years	More than 5 years
<i>in USD</i>					
Liabilities					
Financial liabilities at amortised cost	224,153,563	576,179,343	826,404,722	4,915,734,584	18,173,264,036
Interest	224,153,563	576,179,343	826,404,722	1,984,243,334	9,998,264,036
Principal	-	-	-	2,931,491,251	8,175,000,000
Other payables and accruals	946,804	-	-	-	-
Total liabilities	225,100,367	576,179,343	826,404,722	4,915,734,584	18,173,264,036

As at 31 December 2022:

	Less than 3 months	Between 3 months and 1 year	Between 1 and 2 years	Between 3 and 5 years	More than 5 years
<i>in USD</i>					
Liabilities					
Financial liabilities at amortised cost	131,674,661	326,529,882	482,022,816	7,889,510,143	6,961,652,031
Interest	131,674,661	326,529,882	482,022,816	1,068,018,892	2,726,652,031
Principal	-	-	-	6,821,491,251	4,235,000,000
Other payables and accruals	1,976,912	-	-	-	-
Total liabilities	133,651,573	326,529,882	482,022,816	7,889,510,143	6,961,652,031

EIG Pearl Holdings S.à r.l.
Société à Responsabilité Limitée
Notes to the financial statements

4.4 Fair value measurement

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

There were no transfers between the different levels during the year ended 31 December 2023.

The following table analyses within the fair value hierarchy the Company's financial instruments (by class) measured at fair value through profit or loss as at 31 December 2023:

<i>(in USD)</i>	Level 1	Level 2	Level 3	Total
<i>Financial assets at fair value through profit or loss</i>				
Investments in equity	-	-	11,918,235,310	11,918,235,310
Derivative financial instruments	-	1,510,391,552	-	1,510,391,552
	-	1,510,391,552	11,918,235,310	13,428,626,862

As at 31 December 2022:

<i>(in USD)</i>	Level 1	Level 2	Level 3	Total
<i>Financial assets at fair value through profit or loss</i>				
Investments in equity	-	-	11,735,984,163	11,735,984,163
Derivative financial instruments	-	1,515,136,083	-	1,515,136,083
	-	1,515,136,083	11,735,984,163	13,251,120,246

The primary Level 3 valuation technique used by the Company is the discounted cash flow model. The Company views discount rates and cash flow as the key unobservable inputs for valuing its investments. The use of unobservable inputs requires a significant degree of judgment. The Company assesses the accuracy and reliability of the sources it uses to obtain unobservable inputs.

A 25 basis point increase or decrease represents management's assessment of a reasonable possible change in discount rates. A +/- 0.25% from year end discount rate would have the following impact on the equity investments recorded in statement of profit or loss and statement of financial position:

<i>in USD</i>			Movement on discount rate	
			As at 31 December 2023	
Effect in USD	Fair value	Discount rate	0.25%	-0.25%
Investments in equity	11,918,235,310	6.84%	(271,669,255)	281,501,050
			As at 31 December 2022	
Effect in USD	Fair value	Discount rate	0.25%	-0.25%
Investments in equity	11,735,984,163	6.75%	(282,020,480)	292,652,964

The carrying value of cash and cash equivalents and other payables and accruals are assumed to approximate their fair values, due to their respective short-term nature.

NOTE 5 – ADOPTION OF NEW AND REVISED IFRS ACCOUNTING STANDARDS

Certain new standards, amendments and interpretations to existing standards have been issued by the IASB and are not yet effective. The Company has not adopted any of these standards or amendments before their effective date.

(i) *New standards, amendments and interpretations effective in the current period*

The amendments which are effective from 1 January 2023 that do not have material impact on the financial statements:

- IFRS 17 Insurance Contracts (including amendments); Effective 1 January 2023
- Amendments to IAS 1 Presentation of Financial Statements and IFRS Practice Statement 2: Disclosure of Accounting policies (issued on 12 February 2021); Effective 1 January 2023.
- Amendments to IAS 8 Accounting policies, Changes in Accounting Estimates and Errors: Definition of Accounting Estimates (issued on 12 February 2021); Effective 1 January 2023.
- Deferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments to IAS 12); Effective date 1 January 2023.
- Amendments to IAS 12 Income taxes: International Tax Reform – Pillar Two Model Rules

(ii) *New standards, amendments and interpretations issued but not yet effective*

- Amendments to IAS 21: Lack of exchangeability (issued on 15 August 2023) effective on 1 January 2025*.
- Amendments to IAS 7 Statement of Cash Flows and IFRS 7 Financial Instruments: Disclosures: Supplier Finance Arrangements (issued on 25 May 2023) effective on 1 January 2024.
- IAS 1 Presentation of Financial Statements – Amendments regarding the classification of Liabilities as Current or Non-current (issued 23 January 2020, 15 July 2020, and 31 October 2022) effective on 1 January 2024.
- Amendments to IFRS 16 Leases: Lease Liability in a Sale and Leaseback (issued on 22 September 2022) effective on 1 January 2024.

*Not yet endorsed by European Financial Reporting Advisory Group.

None of these is expected to have a material effect on the financial statements of the Company.

There are no other IFRSs or IFRIC interpretations that are not yet effective that would be expected to have a material impact on the Company.

EIG Pearl Holdings S.à r.l.
Société à Responsabilité Limitée
Notes to the financial statements

NOTE 6 – ADMINISTRATIVE AND LEGAL EXPENSES

The Company incurred administrative and legal fees amounting to USD 2,097,425 (2022: USD 8,420,484) for the year ended 31 December 2023.

The Company is subject to the minimum net wealth tax in Luxembourg. The net wealth tax is presented under administrative expenses.

The Company had two part-time employees during the year ended 31 December 2023. (2022: one part-time).

NOTE 7 – NET CHANGES IN FAIR VALUE OF FINANCIAL INSTRUMENTS AT FAIR VALUE THROUGH PROFIT OR LOSS

7.1 Investments in equity at fair value through profit or loss

The Company measures the equity securities at fair value through profit or loss. The fair value adjustment for the year ended 31 December 2023 amounts to USD 182,251,147 gain (2022: USD 1,222,122,728 loss).

For detailed transactions taking place during 2023, please refer to Note 11.1.

11.2 Financial assets at fair value through profit or loss - Derivative financial instruments

As at 31 December 2023, the Company has existing interest rate swap agreements to manage its exposure to fluctuations in interest rates with various financial institutions. Refer to Note 9 on the interest expense with respect to the swap agreements.

As at 31 December 2023, the fair value of these derivatives is USD 1,462,365,640 (2022: USD 1,495,539,384), refer Note 13.2).

As at 31 December 2023, the net interest receivable on swaps is USD 48,025,912 (2022: USD 19,596,699 refer Note 13.2).

Valuation technique used to value interest rate swaps is the present value of the estimated future cash flows based on the observable yield curves.

11.3 Cash and cash equivalents

The below figures reconcile to the amount of cash shown in the statement of cash flows at the end of the financial year as follows:

<i>in USD</i>	Balance as at 31 December 2023	Balance as at 31 December 2022
Cash at bank	132,517,191	100,368,091
Balances per statement of cash flows	132,517,191	100,368,091

NOTE 12 – EQUITY

12.1 Share capital

The Company was incorporated on 21 September 2020 with a subscribed capital of USD 14,618 comprising of 14,618 ordinary shares, with a par value of USD 1 each and fully paid up. Subsequently, the share capital of the Company was increased to USD 1,000,000 in 2021 by the issue of 985,382 shares having nominal value of USD 1 each.

As at 31 December 2023 and 2022, the subscribed capital of the Company amounts to USD 1,000,000 and is represented by 1,000,000 shares, with a par value of USD 1 each and fully paid.

12.2 Share premium

For the period from 21 September 2020 to 31 December 2021, the shareholders of the Company made cash contributions to the share premium account for a total amount of USD 250,000 which was recorded as an equity contribution without issuance of shares.

On 14 June 2021, 985,382 shares were issued at a premium of USD 1,894,152,145.

During the year 2023, repayments of the share premium account for a total amount of USD 205,000,000 (2022: USD 225,000,000).

As at 31 December 2023, the share premium of the Company amounts to USD 1,464,402,145 (2022: USD 1,669,402,145).

13.1 Financial liabilities measured at amortised cost

The Company has borrowed amounts from financial institution lenders under various arrangements and these amounts have been classified as financial liabilities measured at amortised cost.

As at 31 December 2023, financial liabilities at amortised cost are comprised of Bridge Arrangement amounting to USD 2,934,398,390 (2022: USD 6,823,437,465), Initial Facilities outstanding amounting to USD 1,711,638,340 (2022: USD 1,713,144,208), Additional Facilities outstanding amounting to USD 3,897,252,701 (2022: USD Nil) and Bonds amounting to USD 2,490,021,818 (2022: USD 2,489,139,778).

Bridge arrangement and Initial Facilities Agreement

On 30 April 2021, the Company entered into a Bridge Facility Agreement (“Bridge”) with financial institution lenders (namely BNP Paribas, Citibank, N.A., First Abu Dhabi Bank, HSBC Bank Middle East, JP Morgan Chase Bank, Mizuho Bank, MUFG Bank, Sumitomo Mitsui Banking Corporation and the Hong Kong and Shanghai Banking Corporation Limited). The total facility granted to the Company amounted to USD 10,823,212,526, of which the Company had drawn USD 8,543,212,531 till the refinancing exercise discussed below.

During the year 2022, the Company decided to partially refinance the Bridge Facility Agreement following which an Initial Facilities Agreement (“Initial Facilities”) was signed on 4 October 2022 with financial institution lenders (namely Arab Petroleum Investments Corporation (APICORP), Bank of China (Dubai Branch), Bank of China Limited (London Branch), KEB Hana Bank (London Branch), The Korea Development Bank, The Korea Development Bank (London Branch), Mashreqbank psc, The Norinchukin Bank (Head Office), Riyad Bank (London Branch) and The Saudi National Bank. USD 910,000,000 and USD 825,000,000 were drawn as Initial Facility A and Initial Facility B respectively. As per the utilisation requests dated 12 October 2022, USD 903,175,000 and USD 816,750,000 from Initial Facility A and B respectively was applied towards the partial repayment of existing Bridge Facility. Further, USD 6,825,000 and USD 8,250,000 from Initial Facility A and B was held by the Agent towards the Upfront Fees mentioned in the agreement. Accordingly, this refinancing exercise resulted in a partial settlement of the existing Bridge Facility amounting to USD 1,719,925,000 and the amount drawn under the existing facility reduced to USD 6,821,491,246.

During the period ended 31 December 2023, the Company further partially refinanced its Bridge arrangement by entering into an Additional Facility Agreement (“AFA”) on 14 March 2023, availing with the following facility agreements:

- Incremental Facility No. 1 on 13 April 2023 with amount of USD 750,000,000;
- Incremental Facility No.2 on 28 July 2023 with amount of USD 500,000,000;
- Incremental Facility No.3 on 22 August 2023 with amount of USD 1,400,000,000;
- Incremental Facility No.4 on 20 September 2023 with amount of USD 600,000,000;
- Murabaha Facility Agreement on 20 September 2023 with amount of USD 690,000,000

to repay the existing Bridge facility to the extent of USD 3,890,000,000 along with interest accrued on this amount till the date of utilisation being 22 March 2023, 27 April 2023, 31 August 2023 (Incremental facility 2 and Incremental facility 3) and 28 September 2023 (Incremental facility 4 and Murabaha facility) respectively.

As a result of this refinancing, the modification of Bridge arrangement has been evaluated as substantial resulting in derecognition of existing liability and recognition of a new liability (refer Note 9 where the impact of modification has been disclosed).

(a) Bridge Facility dated 30 April 2021

The maturity date of the bridge arrangement is on 17 June 2026. Interest rate was calculated as LIBOR (based on an Interpolated Screen Rate as defined by Bridge Facility Agreement) plus an applicable margin per annum as defined in the agreement; the interest rate has been set at 3.81957% per annum on 31 December 2022. After the Rate Switch Date, the Compounded Reference Rate (SOFR) replaced the use of LIBOR for the calculation of interest, the interest rate has been set at 6.5933% per annum on 31 December 2023. The Company is also liable to pay a commitment fee at 0.20% per annum of the undrawn amount from the facility. Accrued interest on the loan is payable on the last day of each interest period. The Company may select an interest period for a loan in the utilisation request for that loan or in a selection notice. In absence of any notice, the interest payment date will be at end of every 3 months. The principal amount of the loan will be fully repaid on the maturity date.

In 2023 the Company has also entered into a Debt Service Reserve Facility (“DSRF”) Agreement in pursuance with the Bridge Facility Agreement, wherein the original lenders have granted to the Company an additional reserve facility USD 260,000,000. The Company is liable to pay a commitment fee at 0.45% per annum of the undrawn amount from the facility. During the year, the Company has not drawn any amount from this facility.

As at 31 December 2023, the total amount withdrawn under the facility amounts to USD 2,931,491,250 (31 December 2022: 6,821,491,250), and interests accrued on the bridge facility amount to USD 16,148,248 (31 December 2022: USD 22,436,391). During the period, commitment fee on the bridge facility and DSRF agreement amounting to USD 2,845,341 (2022: 3,031,879) has been expensed to profit or loss.

(b) Initial Facilities Agreement dated 4 October 2022

The termination date of the facilities are 15 years and 20 years from the date of the agreement respectively for Facility A and Facility B. The facility carries interest at a compounded reference rate which means, in relation to any RFR Banking Day during the Interest Period of a Compounded Rate Loan, the percentage rate per annum which is the Daily Non-Cumulative Compounded RFR Rate for that RFR Banking Day, plus an applicable margin as defined in the agreement.

As at 31 December 2023, the amounts withdrawn under the Initial Facilities Agreement are USD 1,735,000,000 (31 December 2022: USD 1,735,000,000) and interests accrued on the Initial Facilities amount to USD 41,902,533 (31 December 2022: USD 20,126,465).

(c) Additional Facility agreement dated 14 March 2023

The termination date of the facility is 20 years from the date of the agreement. The facility carries interest at a compounded reference rate which means, in relation to any RFR Banking Day during the Interest Period of a Compounded Rate Loan, the percentage rate per annum which is the Daily Non-Cumulative Compounded RFR Rate for that RFR Banking Day, plus an applicable margin as defined in the agreement.

As at 31 December 2023, the amount withdrawn under the Additional Facility agreement is USD 750,000,000 (31 December 2022: USD Nil) and interest accrued amounts to USD 19,103,497 (31 December 2022: USD Nil).

(d) Incremental Facility No. 1 dated 13 April 2023 ('IFN 1')

The termination date of the facility is 20 years from the date of the notice of utilisation. This facility is availed under the Facilities Agreement that was signed on 4 October 2022. The facility carries interest at the compounded reference rate as defined in the facilities agreement dated 4 October 2022 and margin at 2.45% per annum.

As at 31 December 2023, the amount withdrawn under the Additional Facility agreement is USD 500,000,000 (31 December 2022: USD Nil) and interest accrued amounts to USD 12,839,449 (31 December 2022: USD Nil).

(e) Incremental Facility No. 2 dated 28 July 2023 as increased by Incremental Facility No. 3 dated 22 August 2023 ('IFN 3')

The maturity date of the facility is 28 July 2046. This facility is availed under the Facility Agreement that was signed on 4 October 2022. The facility carries interest at the compounded reference rate as defined in the facility agreement plus margin 2.7% per annum.

As at 31 December 2023, the amount withdrawn under the Additional Facility agreement is USD 1,400,000,000 (31 December 2022: USD Nil) and interest accrued amounts to USD 37,713,278 (31 December 2022: USD Nil).

(f) Incremental Facility No. 4 dated 20 September 2023 ('IFN 4')

The maturity date of the facility is 20 September 2046. This facility is availed under the Facility Agreement that was signed on 4 October 2022 and it carries interest at the compounded reference rate as defined in the facility agreement dated 4 October 2022 and margin 2.7% per annum.

As at 31 December 2023, the amount withdrawn under the Additional Facility agreement is USD 600,000,000 (31 December 2022: USD Nil) and interest accrued amounts to USD 16,296,167 (31 December 2022: USD Nil).

(g) Murabaha Facility Agreement dated 20 September 2023 ('MFA')

The maturity date of the facility is 28 February 2046. This facility is also availed under the Facilities Agreement that was signed on 14 March 2023. The interest rate including margin as of 31 December 2023 was 8.14% per annum.

As at 31 December 2023, the amount withdrawn under the Additional Facility agreement is USD 690,000,000 (31 December 2022: USD Nil) and charges payable amounts to USD 17,566,491 (31 December 2022: USD Nil).

The Management believes that the fair values of amounts drawn under Bridge Facility Agreement, Initial Facilities Agreement, Additional Facility agreement and Incremental Facility No. 1, Incremental Facility No. 2 as increased by Incremental Facility No. 3, Incremental Facility No. 4 and Murabaha Facility agreement approximate their carrying values as on 31 December 2023.

(h) Bonds

On 14 January 2022, the Company issued senior secured bonds of value of USD 1.244 billion (“Series A Bonds”) at 3.545% due in year 2036 and USD 1.244 billion (“Series B Bonds”) at 4.387% due in year 2046 with financial institutions as described in the subscription agreement.

As at 31 December 2023, the total amount payable on the Bonds amounted to USD 2,500,000,000 (2022: USD 2,500,000,000) and interests accrued on the Bonds amount to USD 33,600,833 (2022: USD 33,876,250).

As at 31 December 2023, the fair value of the Bonds amounts to USD 2,097,087,500. The Management has determined the fair value of the Bonds using their quoted prices (Level 1 of the fair value hierarchy).

13.2 Other payables and accruals

Other payables and accruals consist of payables related audit, tax and accounting fees amounting to USD 946,804 (2022: USD 314,190). Other payables related to commitment fees, renewal fees and other charges payable amounting to Nil (2022: 1,662,722).

NOTE 15 – RELATED PARTY TRANSACTIONS

The parent of the Company is EIG Pearl Holdings Parent IV S.à r.l and direct shareholders are Seventy Third Investment company LLC and EIG Pearl Agregator L.P.

During the year ended 31 December 2023, the Company has received distributions from its associate AOPC amounting to USD 578,492,290 (2022: to USD 602,447,820). (Refer Note 11.1)

The Company did not enter into any significant transactions with related parties outside the normal course of business.

As at 31 December 2023 Nil (2022: Nil), the Company's accounts have no material balances outstanding to or from any related parties.

NOTE 16 – MANAGERS' REMUNERATION

There were no managers' remuneration for the year ended 31 December 2023 (2022: Nil)

NOTE 17 - CONTINGENT LIABILITIES AND COMMITMENTS

The Company had no contingent liabilities or commitments as at 31 December 2023 (2022: Nil).

NOTE 18 – OPERATING SEGMENT

The Board of Managers is responsible for the Company's entire portfolio and considers the business to have a single operating segment. The Board of Managers' asset allocation decisions are based on a single, integrated investment strategy, and the Company's performance is evaluated on an overall basis. Refer to note 2.14 for the measures and process to review the valuations.

NOTE 19 - SUBSEQUENT EVENTS

On 29 January 2024, the Company received a dividend from AOPC for an aggregate amount of USD 161,917,819.57.

In March 2024, the Company entered into (i) a loan agreement for an amount of USD 1.5 billion with a tenor of 23 years and (ii) a loan agreement for an amount of USD 500 million with a tenor of 20 years to partially refinance its Bridge Facility Agreement. The Management believes that the impact on account of this refinancing on these financial statements is not material.

There were no other significant subsequent events that occurred after 31 December 2023.
